

## **WTF Publications List**

*Between the years 1979 and 2006 the Foundation published a variety of papers on several key issues in which it was involved. These included education, theology, community development, political economy and globalisation.*

*On a regular basis we are asked for copies of these papers. Unfortunately many are now out of print, but we are happy to offer a photocopying service in the event of any requests for single or multiple copies of these papers.*

*The cost of these photocopied documents is £10.00 plus p&p. Those titles with an asterisk next to them still have printed copies available and their price is listed. Where there are gaps in the numbering it reflects the fact that original copies of these papers are no longer available.*

*To order a copy of any of these papers please write to:*
